

TRIVACO Fiberglass Systems

Some of Our Current Customers Include:

- American Electric Power
- Big Rivers Electric
- Black & Veatch
- CH2M Hill
- Dayton Power & Light
- Duke Energy
- Fluor Daniel
- Fosdick & Hilmer
- Glatfelter Paper
- Hoosier Energy
- Kentucky Utilities
- Louisville Gas & Electric
- Smith Fibercast

Fiberglass Pipe Fabrication & Installation

Turnkey Capabilities Summary

- Fiberglass Fabricators
- Pipe, Grating and Structures
- Field Service Repairs
- Turnkey Capabilities from Engineering to Installation

Products and Services include:

- Wholly integrated fiberglass pipe and grating fabrication shop
- Field fabrication and installation available upon request
- Convenient to Interstates 75, 71,70 and 275 in Greater Cincinnati
- Fully insured
- Fully Certified to ASTM B31.3:
 - Taper Joints to 24"
 - Socket Joints to 14"
 - Saddles
 - Tee Miters
 - Butt Wrap Joints to 60" and Larger

Fiberglass Structures

Fiberglass Piping

Belzona Coating Systems

TRIVACO Fiberglass Systems Products Include:

- FRP Components** provide excellent properties to deal with abrasive or corrosive applications. FRP is strong, lightweight and corrosion-resistant.

Applications: platforms, stairways, hi-load trench grating, pedestrian grating, ladders, handrails, and pipe crossovers
- Belzona Coating Systems** specializes in the design and manufacture of repair composite materials and protective coatings for machinery, equipment, buildings and structures, offering the solution to an extensive range of engineering problems and repair situations. From full turnkey systems to simple in-situ repairs, our innovative materials provide the answer to a variety of industrial issues, including erosion, corrosion, chemical attack, abrasion and wear, water and weatherproofing

Applications: valves, pipes & fittings, engines & casings, heat exchangers, tanks & chemical containment areas, mechanical power transmission, pumps, and gaskets, seals & shims
- Fiber Glass Systems** leads the world in supplying piping systems to a multitude of applications and severe service conditions within the chemical and industrial marketplace. We have the product and process to provide a fit-for-purpose systems for every need.

Applications: corrosive slurries, chemicals, solvents, acids, cooling water, potable water, and brine
